Swimming Pool Fencing

Protecting your own

SWIMMING POOL FENCING

is manufactured at our workshop. We have our standard height of pool fence, but if you require it to be a certain style and height, the Workshop Manager and Operations Director will be happy to assist you.

Manase Promise: Our Water Safety Campaign

As part of our water safety campaign, Manase Construction has reduced its prices for this type of fence. It is important to take all safety precautions when you have a swimming pool at home. Make your home safe for those you love and cherish.

Supervise children around your pool at all times

Child Safety

Pool fence is used as a safety measure to protect young ones from gaining access to the swimming pool, especially when the caretaker or parent isn't looking.

Child locks

As part of our water safety campaign, we have introduced the child-lock which requires someone taller than 1.2m to be able to reach the lock.

Dog Fencing

If what you need is a dog fence that also makes your garden look good, pool fencing is one of the options available from Manase.

Decorative

Manase's pool fences can also be used as a decorative boundary fence, keeping young digging hands and pets away from beautiful gardens and borders.

Emergency

All Manase pool fences are installed with the necessary emergency numbers clearly displayed for easy access when you need them the most.

Manase Pool fencing - supporting water safety at low cost.
